

Communication Is Driving Better Business Outcomes

Cloud hosted. Cost-effective. Powerful. The Vonage Business Cloud is a communications solution that can maximize productivity and help you drive revenue. It integrates with enterprise software solutions your business uses everyday, conferencing and collaboration, call centers and developer friendly APIs that enable the personalized, immediate communication your customers expect. Vonage Business is ready to help you transform your business.

Does Your Business Have the Communications Ability to Empower Your Business Vision?

24/7 Support From Day One

Our sales team works hard to set you up with the right solution, customer care guides you through account set-up and troubleshooting, and our development team is constantly innovating to make your business solutions more beneficial

Integrate For Better Customer Intelligence

Link the information in your day-to-day applications with detailed data from your inbound and outbound calls. Eliminate repetitive tasks so your team can focus on expanding your market and providing better service to your customers.

All-in-one Conferencing and Collaboration

Amazon Chime Pro Tier is included in Vonage Business Cloud plans to provide an integrated solution for phone, web, video conferencing and collaboration. It's everything your business needs to supercharge productivity—all at one incredible value.

Foundation For Excellence

Up and Running Fast

Get installed in as little as 48-72 hours utilizing our mobile and desktop solutions. Bring your own phones or acquire phones preconfigured by Vonage Business.

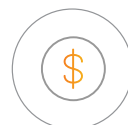

Better Quality of Service.

Using SmartWan, our SD-WAN solution, your business will be able to handle bandwidth-intensive applications without degrading real-time voice and video communications.

Enable Mobility and Productivity

Whether in the office or traveling abroad, voice, instant messaging and presence follow you. Stay connected to your business with full communications access from your desk phone, desktop, laptop, smartphone or tablet.

Lower Total Cost of Ownership

Vonage Business Cloud runs across your high-speed Internet connection. With no expensive equipment to purchase and no maintenance contracts required.
